FULL STACK DEVELOPER

As a Full Stack Developer, I have accumulated 2 years of invaluable experience, primarily focusing on the Front-end development aspect of projects.
I have worked on several projects, like dashboards, ecommerces, mobile apps, always focusing on gaining all the knowledge of my partners and superiors. I want to continue improving myself as a developer, getting more experience and discovering new challenges to complete.

MOST RECENT EXPERIENCE

Resow Solutions
July 23 - Present - Mobile & Front development | Company

- Work in a mobile app for an optical enterprise using React Native and AWS
- Contribute in Design ideas & Logica
- Improve team performance
